Erosion Colection by Zaha Hadid Architects

Petreous Warps

01/06/2024

Mesa Minera

The Minera Table and the Branch Console are included in the new and exclusive Erosion Collection by Zaha Hadid Architects for Neutra, presented at the latest Salone del Mobile Milano. The collection's organic geometry evokes the beauty of natural stone and how it is gradually transformed over time due to weather conditions. Each piece has been carved from the finest Carrara marble with free-flowing and sinuous forms that blur the boundary between furniture and sculpture. [\[+\]](#)
